

Serve Receive Structures:

The following Serve Receive Patterns, utilize different strengths for all teams to know and use throughout the season. **Depending on age groups & abilities, a coach will need to assess the team's best pattern to achieve the most success.** When a team is educated on the different patterns, it helps them adjust to different servers and side out quicker.

😊 = setter, ⊗ = players, ↗ = takes short, ↘ = takes deep, → = indicates shifting

- A. Basic 3 person serve receive. This is the most popular amongst teams. It typically utilizes the strongest passers with the knowledge of who covers what area.
 - a. Watch for overlapping! All players must remain in rotation setting while shifting patterns. (Once the ball is contacted during serve the setter can move)
 - b. Pattern repeats, as far as responsibilities in each serve receive.

Picture on the left is their rotation pattern. Picture directly next to it is the serve receive pattern in that rotation.
